

WOKINGHAM COPY.

7 DEC 1944

Chief Surveyor..... Received from Chief Surveyor.....

SHIP'S NAME..... REPORT..... No.....

For the CHIEF SHIP SURVEYOR and CHIEF ENGINEER 8th December 1944

S. Dear Sir,

m.s. "BRITISH COURAGE"

With reference to Glasgow Report No.68982 it is concluded that the five injection air receivers for the main engine have been removed from the vessel and that the new Weir's compressor replaces the original steam set and is not additional thereto but I shall be glad if you will request the Surveyors to confirm this.

I am, Dear Sir,
Yours faithfully,

Clerk to the
Classification Committee.

The Secretary,
GLASGOW
