

GLASGOW.

26th April 1920.

PETER MCGREGOR.

Messrs. The Forth Shipbuilding & Engineering Co. Ltd. Govan, survey during construction three steel Manoeuvring Air Reservoirs Nos. 6155 intended for the oil engined Vessel No. 578 built by Messrs. Harland & Wolff, Ltd., Belfast.

The material has been tested by the Surveyors to this Society. The scantlings are in accordance with the Rules for a working pressure of 356 lbs. per square inch. The Reservoirs were tested in the presence of the undersigned by hydraulic pressure to 712 lbs. per square inch, showed no signs of weakness and were found sound and tight at that pressure. The working pressure should not exceed three hundred and fifty six pounds per square inch.

Marks on Reservoirs:- 6155.
