

POSTPONED SURVEYS.

Case of the S.S. "INCHMAY" (B.C. Class)
62734 in Reg. Bk. tons, Built 1920 - 1 mp.
 ssed Owners
Port of Registry
 Special Survey, Type 4, due 8.45.
 vey Due Load Line Certificate expired 28.4.49.

The Hong Kong Surveyors write they are advised by the Owners that this vessel is now due to arrive at that port, and they regret that owing to uncertain conditions, they are not in a position to determine exactly what will be done regarding survey, and she will remain there pending a decision.

The Surveyors add that the "Inchmay" and "Inchkeith" will join the several other Williamson vessels laid up at that port. The type of vessel, coupled with local conditions, would seem to preclude repair at this time.
