Middlesbrough, 6th July 1940,

LLOYD'S REGISTER  
Received  
8 JUL 1940  
And  
LONDON

Reference

E

*6 Plans*  
Dear Sir,

s.s. "EMPIRE ENDURANCE"

With reference to your letter of the 4th instant regarding the above vessel, we now submit for the consideration of the Committee plans of the main shafting.

Diameter of propeller:- 6m, 350

Revolutions of screwshaft:- 78 R.P.M.

From information given by the Owners' Representative the combined power of the reciprocating engines and turbine is 6500 I.H.P., but it is not known what percentage of this power is developed by the exhaust turbine.

We shall be glad if you will return the enclosed plans of main shafting (six) at your earliest convenience. As these plans belong to the vessel, will it be necessary for us to obtain copies of all plans submitted to you for future reference?

We are, Dear Sir,  
Yours faithfully,  
The Surveyors,

Per:-

*R. J. Easthope*

The Secretary,  
LONDON.
