London.

Dear Sirs,

M/S. "Hav".

We have received from England a copy of your letter to Arnesen, Christensen & Smith Ltd., Newcastle, regarding the notation in your Register regarding the special character of the beam construction, and we beg to suggest that this is entered under the name of which it is patented, namely: "Beams built on "open beam system". We trust you will find this in order.

Yours faithfully

Arnesen Christensen & Co. A/S

Karl Arnesen
