Wokingham, Berks.

28th September, 1939.

Dear Sirs,

With reference to your First Entry Report No. 97822 on the motorship "HAV" I think it well to forward herewith, for your information, a copy of a letter which has today been addressed to Messrs. Arnesen, Christensen & Smith, Ltd., regarding the system of beam construction in this vessel.

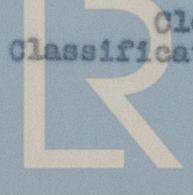

I would at the same time refer you to Circular No. 1284, and shall be glad to learn the total length of the double bottom tanks (forward, under engines and aft, including cofferdams) and the total capacity in tons of salt water.

The dynamo test certificates do not appear yet to have reached this Office, and I shall be glad if you will endeavour to obtain these and forward them to me.

The Surveyors,

NEWCASTLE-on-TYNE

I am, Dear Sirs,  
Yours faithfully,

Clerk to the  
Classification Committee.
