

"HAV".
=====

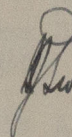

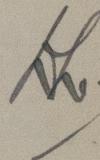

The system of beam construction approved and fitted in this vessel is of a special character.

The Owners consent was required and a suitable notation is required to be made in the Register Book in respect to this system.

On the 25th October last, the Builders wrote that this system was being adopted as an Owners' requirement and was specified in the hull specification signed by the Owners and themselves.

It is suggested that a suitable form of notation would be "Beams attached to decks by angle struts", but before this be inserted in the Register Book, it is considered advisable that the Owners concurrence should be obtained .

It is therefore submitted that Messrs. Arnesen, Christensen & Smith., Ltd., be accordingly communicated with to this effect.
