

Shipbuilders: Messrs. Swan Hunter & W.R. Yard No. 1567

Engineers: Messrs. Iver Power Co.

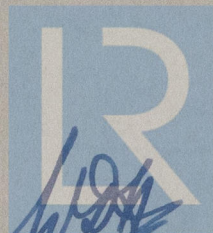

Engine No.

## La Mant Boiler

It is submitted that the plan of  $1\frac{1}{2}$ " diameter  
Safety Valve merits approval  
for a working pressure of 120 lbs./sq. in.  
provided

It may be added that  
no objection will be taken to the proposal  
to fit only one of these valves to  
the La Mant boiler in view of the  
fact that the safety valves on the  
oil fired cylindrical boilers are capable  
of dealing with the total evaporation  
of the system.

Return 1 plan.
