71, Fenchurch Street,
LONDON. E.C.3.

11th. January, 1939.

Dear Sirs,

Messrs. Swan, Hunter & Wigham Richardson Ltd.

Yard No. 1567. Engine No. 1606.

Referring to the recent correspondence which we have had regarding the fitting of a safety valve to the boiler for Messrs. Swan, Hunter & Wigham Richardson, we have this morning received triplicate prints of Messrs. A.Cockburn & Co's Drawing 1045, showing a $1\frac{1}{2}$ " cast iron single spring safety valve, which we believe will meet your requirements.

We think you will agree that, in view of the fact that this boiler is working in series with existing boilers and does not function as an independent unit, that one single spring valve should be ample.

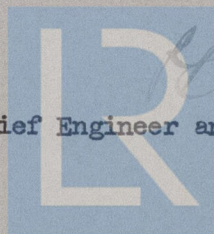

We find it is not possible to obtain a 1" valve of this type, and it will, therefore, be necessary for us to modify one of the flanges on our headers to cope with the increased diameter of the safety valve flange.

We will, however, forward you revised prints of this flange, when we have received approval of the enclosed Drawings.

Yours faithfully,
For IVOR POWER SPECIALTY COMPANY LIMITED.

Chief Engineer and Manager.

Encl. 3 prints Drawing 1045.
