IN OUR PRINTED FORM OF CONTRACT.

Your Ref.

Messrs. The Surveyors to Lloyds Register,
Collingwood Buildings,
Collingwood Street,
Newcastle-on-Tyne, 1.

Dear Sirs,

Ship No.1567 - Engine No.1606.

We thank you for your letter of the 3rd inst.
approving the crank, intermediate and screw shafts, also the
plan for the riveted starting air receivers, and for returning
plans Nos.6068, 4943, 4497 and 4368.

We note that the minimum diameter of crankpin which
will be approved for a maximum pressure of 680 lbs. per sq.
inch is 445 m/m (solid shaft). With regard to this, we shall
be glad to know what is meant by solid shaft.

Will you please inform us what is the maximum
pressure which you would approve for a crankpin of 436 m/m
diameter with a 150 m/m central hole.

Yours faithfully,

For SWAN, HUNTER & WIGHAM RICHARDSON, Limited
