LONDON. E.C.3.

6th. January, 1939.

Dear Sirs,

Messrs. Swan, Hunter & Wigham Richardson Ltd.

Yard No. 1567. Engine No. 1606.

Referring to the visit of your Surveyor, Mr. Smith, to our Works a day or two ago, we have this morning received a letter and certain certificates from Messrs. Richards of Leicester, who are fabricating the mild steel casing for us.

We would mention that this casing is not subject to pressure, and as it is purely a mild steel enclosure, it does not function in any respect in the manner of a boiler shell. We therefore omitted to mention to Messrs. Richards that the plates would be subject to your inspection, as we assumed that in accordance with the usual Insurance Company practice, you would merely concern yourselves with the pressure parts of the unit.

This casing is now practically completed, and we therefore attach a copy of Messrs. Richards' letter, and the certificates which were attached, and trust that you are prepared to approve this material.

We thank you in anticipation of your usual prompt attention.

Yours faithfully,
For IVOR POWER SPECIALTY COMPANY LIMITED.
