Messrs. Swan, Hunter & Wigham Richardson Ltd.
Yard No. 1567. Engine No. 1606.

Dear Sirs,

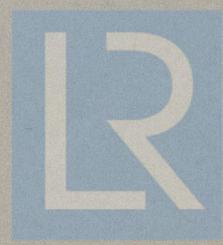

Referring to our letter of the 23rd. ult. to which was attached three copies of our Order to Messrs. Tubes Limited, for the additional tubing required, we have this morning heard from this Firm regarding the grinding of the ends, and understand that you will be prepared to waive this in view of the fact that the tubes are not required for export.

We take this opportunity of confirming our 'phone conversation with you yesterday to the effect that we are commencing tube bending, and that you will arrange for one of your surveyors to visit us to-day, if possible, as we are anxious for him to witness the bending of the first tube in order to assure himself that this bending is satisfactory.

Yours faithfully,
For IVOR POWER SPECIALTY COMPANY LIMITED.

A. P. Meen
Chief Engineer and Manager.
