Messrs. Tubes Limited,  
Aston,  
BIRMINGHAM. 6.

Our Ref. SRG/C.1684.  
Your Ref. JHB/EC.

Order No. 6532.  
Date. 23.12.1938.

Please Supply -

1,000 ft. of 1 $\frac{1}{2}$ " o.d. x 12 s.w.g. x 30'0" Long  
Cold Drawn Weldless Steel Tube, Plain Ends.

All in accordance with your quotation of the 19th. instant,  
and subject to Lloyds Register of Shipping inspection and  
testing requirements.

We have sent copies of this order to Lloyds Register of Shipping  
and no doubt their local representative will be getting in touch  
with you regarding the tests required.

Referring to the extra cost of grinding the ends of the tubes, it  
appears to us that this grinding is unnecessary as we shall, of course,  
have to cut the tubes to various lengths. Presumably this grinding is  
only required when the tubes are being used in the actual lengths which  
you supply. Confirmation on this point would be appreciated.

If it is absolutely necessary for the tubes to be ground to suit Lloyds  
special certificate requirements, you are to arrange for this to be  
done. In the case of this being done, an extra charge of .....  
will be made.

DELIVERY.

Quick delivery is of the utmost importance and we should be glad if  
you could arrange to despatch within fourteen clear working days,  
delivery by Green Arrow Good Service to prevent delays.
