Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.3.

23rd December, 1938.

Dear Sirs,

Swan, Hunter & Wigham Richardson's
Engine No.1606 - Yard No.1567.

E.

I beg to acknowledge the receipt of your letter of the 22nd instant on the subject of the La Mont Waste Heat Boiler which you are to supply for the above vessel, and note that the stock tubes referred to in my communication of the 21st instant have been made from Open Hearth steel, which is in order.

It will also be in order if the remaining tubes are ordered to a similar specification provided the physical tests required by the Society's Rules be carried out at the Tube Works in the presence of the Society's Surveyors.

Further, no objection will be taken to the proposed material and method of manufacture of the headers, provided that, in this case also, the necessary tests be carried out in the presence of the Society's Surveyors.

I am, Dear Sirs,
Yours faithfully,

The Iver Power Specialty Co. Ltd.,
Ivor Works,
KINGS LANGLEY, Herts.

Secretary.

Copy to Hon. Secy.
