

Shipbuilders: Messrs. Swan Hunter & W. R. Ltd. Yard No. 1567

Engineers: Messrs Over Power Co. Ltd. Engine No.

La Mant Boilers

It is submitted that the plan of Over Power Co. be informed it is noted that merit approval for the stock tubes referred to in the Secretary's provided letter of the 21st instant have been made from open hearth steel and this is in order. It will also be in order if the remaining tubes are ordered to a similar specification provided the physical tests required by the Society's Rules are carried out ^{at the tube works} in the presence of the Surveyors. Further no objection will be taken to the proposed material and method of manufacture of the headers provided, in this case also, the necessary tests be carried out in the presence of the Surveyors.

Return plan.
