The Secretary,
Lloyd's Register of Shipping,
71 Fenchurch Street,
LONDON, E.C.3.

17th October 1938.
Monday.

Dear Sir,

We duly received your letter of the 14th instant with enclosures relating to the scantlings you could approve for the single screw motor cargo ship of about 9,500 tons deadweight referred to in our letter to you of the 10th instant and thank you for the information you have kindly sent us in this connection.

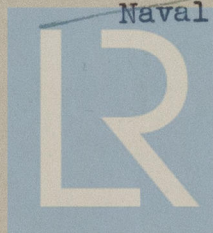

Regarding the system of beam construction proposed the particulars we indicated on our plans were as stated to us by the designers of this form of construction as in accordance with Lloyd's requirements. We are sending particulars of your amendments to the designers of the system and will write you again in regard to this matter as soon as we have their reply.

Yours faithfully,

For Swan, Hunter, & Wigham Richardson, Ltd.

H. Bocher

Naval Architect.
