Enclosures.

8th March, 1939.

Dear Mr. Kruhoffer,

I have to acknowledge the receipt of your letter of the 1st instant relating to the welded bedplate and crankcase of one of the engines proposed for installation in Messrs. Aalborg Vaerft's Yard No. 64, and have noted the remarks you have made respecting the interview you had with the Owners' Representative, Mr. A. Christiansen.

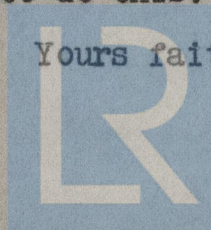

In all the circumstances the Committee have decided to class this engine when installed in the vessel, and the Owners and Messrs. Burmeister & Wain have been advised accordingly.

Copies of the letters addressed to these two Firms are enclosed for your information.

It occurs to me to enquire your reasons for visiting a Representative of the Owners in view of the fact that no instructions were contained in my letter of the 23rd ultimo which required you to do this.

Yours faithfully,

C.H. Kruhoffer, Esq.,
COPENHAGEN.
