

Messrs.Burmeister & Wain.

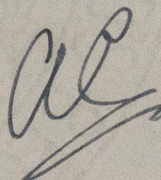

Proposed use of Thomas Steel for parts of Welded Bedplate.  
-----

IT IS SUBMITTED the Copenhagen Surveyors be informed it is noted that Messrs.Aalborg Vaerfts Yard No.64 is building to the Society's class and the Surveyor should make it quite clear to the Owner's representative that the Society have not approved the experimental engine with welded bedplate and entablature containing Differdinger sections made from Thomas Steel.

seen.
