The Secretary,  
Lloyd's Register of Shipping,  
London.

Dear Sir,

With reference to your letter of the 21st ultimo regarding the welded etablature for Messrs. Burmeister & Wain's new type of 6-cylinder 2 SCSA Diesel oil engine, we have to inform you that we are now in receipt of a letter from Messrs. Burmeister & Wain, saying that from the above letter they understand that the use of Thomas Steel can be accepted, but not of Bessemer Steel, and further that they take it that a control of the welding during the construction is not required.

Before answering this letter, we should be glad to have your comments on the case.

I am, Dear Sir,

Yours faithfully,

1 am, Dear Sir,

Here you comments on the case.

Before answering this letter, we should be sure

that the case is not resolved.

They take it that a copy of the report on the con-

dition of the engine, but not of the engine itself, was sent to the

fact that the engine was not sent to the fact that the engine

was not sent to the fact that the engine was not sent to the
