

C7317

GLASGOW

GLASGOW,

5th December, 1933.

J. F. ROBERTSON

Messrs. Stewarts & Lloyds, Ltd. attend at their Imperial Works, Coatbridge, on the 1st December, 1933, for the purpose of witnessing axial compression tests on 10 Derricks made to the order of Messrs. Workman, Clark & Co. (1928) Ltd., Belfast, for their Order No. 369 of 7.9.33, Contract No. 532, and all as stated on signed advice note attached.

8 of these Derricks, made of steel tubes in three sections, cressed and shrunk together at joints, and two made in a single length, appeared sound and the tests were satisfactory.

The material has been made in accordance with the requirements of the Rules of the Society.

Derricks stamped:-

..... lbs.
1.12.33.

FEE £2. 2. 0.
