

Boiler
endorsement

W180-00 53

Shipbuilders: Messrs. *Bremer - Vulkan*

Yard No. *748-750*

Makers: Messrs. *do.*

Plan
Boiler No. *3847*

It is submitted that the plan of *cylindrical donkey* boiler merits approval for a working pressure of *12.65 kg* per sq. *cm*, provided the boiler be constructed under the usual conditions of survey and testing.

The Steel Testing Surveyors should be advised regarding the tensile strength of the *shell plates, butt straps & girder plates* viz:- *47/53 kg/mm²*

Return plan.

Retain copy.

Im. 8, 86 T.

It is concluded that the vertical seam of the steam dome shell plate is welded in way of the butt straps, but this should be confirmed.
