Reference

M.

Dear Sir,

With reference to your letter of the 4th January, 1937, regarding profile and decks plan of Messrs. Bremer Vulkan's Yard Nos. 748-750, I beg to enclose herewith a part profile plan in triplicate of Messrs. Bremer Vulkan's Yard No. 750 for consideration and approval. This part plan shows a girder below bridge deck on Port side at frames 111-117, as suggested by the Owners, instead of a longitudinal bulkhead as carried out on Yard No. 748 and 749.

The Yard would feel much obliged for having this proposal dealt with at an early convenience.

I am, Dear Sir,

Yours faithfully,

*A. Holte.*

The Secretary,
