Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.3.

19th March, 1938.

Messrs. Bremer Vulkan's Nos. 748/9/50

Dear Sir,

M.

I am in receipt of your letter of the 12th instant and in reply thereto I have to state that the strengthening to the quadrant arranged by you in the case of No. 748 has been duly noted.

It is suggested that in the case of Nos. 749/50 it would be well, if practicable, for the doubling plates to be extended farther along the arms and tapered off.

It is noted that the Designers and Makers are proposing to carry out comparative tests on this type of quadrant and the normal cast steel quadrant, and the results of these tests are awaited with interest.

I am, Dear Sir,

Yours faithfully,

Secretary.

R.S. Johnson, Esq.,

HAMBURG.
