Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.3.

14th December, 1936.

Dear Sirs,

M.

I duly received Mr. Carstensen's letter of the 10th instant regarding Messrs. Bremer Vulkan's Yard Nos. 748/750, and in reply thereto I have to state that, as mentioned in my letter of the 28th ultimo, the size of the beam knees as amended on the plan to 900 with eight 22 m/m rivets is in accordance with the practice of the Committee for single deck tankers. At that time a concession was made in that it was agreed that the two further enlarged knees previously required to be fitted in each tank might be dispensed with, and it is considered that, although it is noted the scantlings of the beams have been increased, no further concession in respect of these knees can be agreed to.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

BREMEN.
