Dear Sir,

I return herewith one copy of the plan, forwarded with your letter of the 26th instant, of superheater pressure parts proposed by Messrs. Babcock & Wilcox Ltd., Boiler Contract 6/1321, for Messrs. D. Rowan's Engine No. 1008, Messrs. Lithgows' Yard No. 903, and with regard thereto I have to inform you that this plan will be approved for a working pressure of 250 lb. per sq. inch, provided the steel forgings be made at approved works and tested as required by the Rules, a safety valve be fitted to each part of the superheaters which can be isolated from the boilers, and the superheaters be constructed under the usual conditions of survey and testing.

I am, Dear Sir,

Yours faithfully,

Secretary.

The Secretary,
