The Secretary,
LONDON.

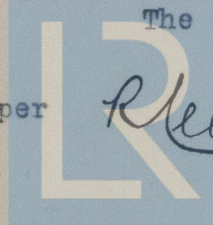

Dear Sir,

MESSRS. HARLAND & WOLFF'S NO. 1003G.

Messrs. Harland & Wolff Ltd., state that they have been advised from their Govan Shipyard that plans of the Electrical Installation of this vessel have been submitted to the Glasgow Surveyors. They would be glad to know the Committee's decision with regard to the question submitted in their letter of the 2nd March 1937, whether the motor-alternator proposed to be fitted in this vessel is subject to inspection during construction and test at the Makers' Works.

We are, Dear Sir,
Yours faithfully,
The Surveyors.
