SHIPBUILDERS, ENGINEERS, BOILERMAKERS  
AND REPAIRERS.

INCH WORKS,

PORT-GLASGOW. 14th September 1912

Messrs. Lloyds Surveyors,  
71, Fenchurch Street,  
LONDON, E.C.

Dear Sirs,

S.S. "TREGARTH".

In reply to your favour of the 13th inst., we beg to say that we have had a letter from the Chief Engineer of above vessel, stating that the rolling stays to the Boiler and the extra stays of the Feed Heater have been completed and finished to the satisfaction of the Surveyor in Cardiff. We do not know of any other items required to be done.

The replace feed pump springs were despatched to Messrs. Rea's store in Birkenhead on the 8th of August, and we notified the Chief Engineer to get them the first time he was in Birkenhead.

Trusting that you will now see your way to pass us the Certificates.

Yours faithfully,

DUNLOP, BREMNER & COY., LIMITED
