

s.s. "LA CARRIERE"

This vessel was built in 1938 - 8 by Messrs. Swan, Hunter & Wigham Richardson, Ltd., Wallsend-on-Tyne.

In February last the Mobile Surveyor was authorised to act on the Owners' behalf and to report such matters as may be considered to come within the category of Owners' requirements at the end of the guarantee period.

It was arranged that a fee of £10-10-0 per day in addition to travelling expenses should be charged.

The Mobile Surveyor has now forwarded his report which has been examined, and appears to be in order.

The time occupied by the Surveyor was $6\frac{1}{2}$ days and his expenses were \$91.70.

It is submitted that the report together with two copies be forwarded to the Owners, and an account rendered for and subsistence £73-10-0, in addition to £18 travelling/expenses.

The hull and machinery specifications etc. should be returned to the Owners when received from the Surveyor.
