29th March, 1938.

Dear Sirs,

E.

Messrs. Swan, Hunter & Wigham Richardson Ltd.,  
Yard No. 1555 - The Wallsend Slipway &  
Engineering Co's Contract No. 933.  
-----

With reference to my letter of the 23rd instant, forwarding a copy of one addressed to Messrs. Crossley Brothers Ltd., regarding their proposal to use a stock air receiver in connection with a 45 Kw. generating set to be supplied for the above Contract, I have to acquaint you I am now in receipt of a further communication from the Firm reading as follows, and I shall be glad if you will be guided accordingly.

"We are pleased to acknowledge receipt of your letter of the 23rd instant, relating to the above order, which is for a 45 Kw. generating set to be fitted in the above vessel.

We have been doing our utmost to obtain a surveyed receiver for this order, and are pleased to inform you that the Newport & South Wales Tube Company have promised to deliver us a surveyed receiver in order that we may keep to our contract delivery date.

We deeply regret having put you to so much trouble in this respect regarding the air receiver, but you will appreciate that it was necessary for us to take some steps in order to avoid delaying the departure of this new vessel.

Thanking you once again for your co-operation and attention, and assuring you of our best services at all times".

Yours faithfully,

The Surveyors,  
MANCHESTER.
