

Builders: Messrs. Short Bros., Yard No. 450.

Engineers: Messrs. White's Marine Eng. Co., Engine No. 11C.

Gear Makers: The Power Plant Co., West Drayton.

IT IS SUBMITTED that with double compound steam reciprocating engines for open sea service, combined with an exhaust steam turbine on the White's system, having particulars as stated in the Secretary's letter of the 22nd January, 1937, the sizes of main wheel and reduction gear shafting as stated in the Secretary's letter of the 6th January, 1937, merit approval.

The plan No. 46648, showing arrangement and details of gearing, also merits approval.

The plan approved in the Secretary's letter of the 6th January, 1937, should be cancelled.

Return plan.

Advise London Outdoor Surveyors and furnish them with plan.
