

Boiler  
endorsement

Shipbuilders: Messrs. Wm. HAMILTON & Co

Yard No. 439/40/41

Makers: Messrs. DAVID ROWAN & Co

Boiler No 1040/41/56

It is submitted that the plan of *auxiliary cylindrical multitubular* boilers merits approval for a working pressure of *225 lbs* per sq. *inch*, provided the boilers be constructed under the usual conditions of survey and testing.

The Steel Testing Surveyors should be advised regarding the tensile strength of the *shell plates & butt straps* viz:- *29-33 tons*

Return plans 3.
