Enclosures.

7th March, 1939.

Dear Sirs,

E. I return herewith two copies of the plan, forwarded with your letter of the 27th ultimo, of amended pumping arrangement proposed by Messrs. Harland & Wolff Ltd. for the steamer "LLANDAFF CASTLE", and I have to inform you that this plan will be approved provided the arrangements be as shown and amended thereon, and the remaining requirements of Sections 20 and 34 of the Rules (1938-9) be complied with so far as they are applicable.

I have to point out that if Nos. 4 and 7 double bottom tanks can be pumped up by the ballast pump, the total cross-sectional area of the air pipes should be not less than that of the respective filling pipes or the ballast pump discharge, whichever is the less.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,
BELFAST.
