General Observations, Opinion as to Class, Recommendation, &c.: -

State clearly whether any and, if so, what alteration is suggested to be made in the existing classification and notification of the vessel in the Register Book consequent upon this survey, thus, for example: - "to remain as now classed in the Register Book without fresh record of Survey," "to remain as classed and to have record of Survey, 1,15," or "to remain as classed and to have record of survey, 1,15, and the notations of ss No. 1-15 and ptnd15, &c."

This Vessel is in my opinion in a good and efficient condition and is eligible to be classed as recommended on the First Entry Report HULL N° 32704 with record of Survey HULL 6.21 and notation of 5.5. N° 3 HULL 6.21
