

S.S. "CESARIO" ex "DADG 76".

Plans (2) forwarded by Mr. Leeuwenburg, of a deep tank which it is proposed to build in the second hold abaft engine room.

It is submitted the Rotterdam Surveyors be informed that provided the arrangements as shown and amended on the plans be carried out to their satisfaction, the proposals embodied thereon will merit approval.

The Surveyors should satisfy themselves as to the condition of the existing structure which will form part of the deep tank.

The tank should be tested as required by the Rules.

The scantlings, <sup>arrangements</sup> it should be observed, have been considered on the understanding that the tank will be used for the carriage of <sup>ordinary cargo or</sup> water ballast ~~only~~.

It is noted that a new plan will be sent to this Office as soon as it is received by the Rotterdam Surveyors.

Mr. 11 7. 21  
amend 16th.  
Plans

Mr Carnaghan - re pumping.

A plan of the amended <sup>pumping</sup> arrangements should be submitted.

Approved
