ANSOAll communications to be addressed to—
THE SURVEYORS.

The Secretary .

London.

Dear Sir .

With reference to your letter dated 27th ultimo regard-
-ing the ex German steamer "D.A.D.G. 76" and which is now named
~~"CESARIO"~~ "CESARIO". I have to inform you that this steamer has arrived
at Amsterdam, and that I have visited the vessel yesterday at
Amsterdam together with the Amsterdam surveyor, that I have seen the
K.N.S. Maats.
~~Owners~~, who stated that she will have the deep tank fitted either at
Amsterdam or some other place which has not yet been decided.

At their request I have pointed out as far as practicable, what
would be required in connexion with the fitting of this deep tank, a
plan will be made and forwarded with the least possible delay for
your consideration.

According to a letter received by Messrs the K.N.S. Maats.,
from Mr Brewer, this vessel has been classed subject to freeboard,
and I understand that although arrangements were made to exempt the
long bridge and poop from tonnage this would not effect her freeboard,
I shall be pleased to hear from you further on this point also whether
the bridge openings in bridge front would in this case allow for this
exemption. In the mean time a letter has been received from the Hull
surveyors as to what remains to be done for vessels' class, and Amsterdam
has received a copy from these letters.

I am Dear Sir.
Yours faithfully, R. C. Remanburg
