E.C. 3.

Dear Sir,

S.S. "D.A.D.G. 76".

We beg to state that the above vessel is now under classification survey at Hull, and understand that all the tanks have been passed with the exception of the testing of No.7. tank as this hold is full of ballast. As this ballast would be a somewhat costly job to discharge we should be glad to know if on your local surveyor's recommendation you would be willing to forego this testing as the "D.A.D.G. 76" is comparatively a new vessel.

We are, Dear Sir,

Yours faithfully,

THE DAVID STEAMSHIP CO. LTD.

H. Brewer
