ENCLOSURES

10th June, 1941.

Dear Sir,

S.

With reference to Greenock First Entry Report No.21415 on the steamer "MICHAEL E", I now forward herewith the Certificates which have been issued in this case.

I would take this opportunity, however, to remark it is noted that 45 fathoms of chain cable require to be supplied, and to refer to Circular No.1780 to the effect that for new ships the reduction in length of cable as a war emergency measure shall not apply in the case of "Tayco" cable.

I shall, therefore, be glad to learn what arrangements the Builders propose to make for the missing 45 fathoms to be supplied at the earliest possible date.

I am, Dear Sir,
Yours faithfully,

The Secretary,
GLASGOW.

Clerk to the
Classification Committee.
