Enclosures.

20th September, 1939.

Dear Sir,

E. I return herewith one set of the plans, forwarded with your letter of the 15th instant, of Main and Auxiliary Boilers No.1064 proposed by Messrs. David Rowan & Co. Ltd. for Messrs. Wm. Hamilton & Co's Yard No.446, and I have to inform you as follows:-

Main Boilers.

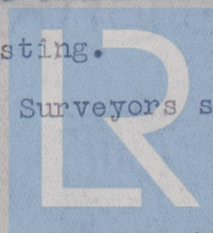

The plan of cylindrical multitubular boilers will be approved for a working pressure of 225 lb. per sq. inch, provided the boilers be constructed under the usual conditions of survey and testing.

The Steel Testing Surveyors should be advised regarding the tensile strength of the shell plates and butt straps, viz:- 30-34 tons per sq. inch.

Auxiliary Boiler.

The plan of cylindrical multitubular boiler will be approved for a working pressure of 225 lb. per sq. inch, provided the boiler be constructed under the usual conditions of survey and testing.

The Steel Testing Surveyors should be advised
