

Boiler
endorsement

Shipbuilders: Messrs. W^m Hamilton & Co^s L^{td}

Makers: Messrs. David Rowan & Co^s L^{td}

Yard No. 446.
Contract
Boiler No. 1064

Main Boilers

It is submitted that the plan of cylindrical multifubulat
boilers merits approval for a working pressure of 225 lb.
per sq. inches, provided the boilerS be constructed under the
usual conditions of survey and testing.

The Steel Testing Surveyors should be advised regarding
the tensile strength of the shell plates & butt straps.
viz:- 30-34 tons | in².
