Sir,

We duly received your letter of the 1st instant respecting the

as follows:-

answer to your letter of the 5th instant- from which we have noted
report from the head Office in London, -we beg to inform you that it
correct that the steamer "MIRLO" left Newport News without having
bolted doors in the after cofferdam bulkheads reveted up, as she
ing her voyage to the loadingplace Beaumont used coal-firing, but at
t port oil-firing was re-installed and we believe that there was
opportunity to have the reviting of the doors examined at the same
