Your Ref:- JBW/HLH.

7th September, 1927.

Dear Sirs,

E.

I am favoured with your letter of the 1st instant, respecting the s.s. "NEW BRUNSWICK", from which it is noted that the plans of pumping arrangement and midship section of this vessel may be retained in this Office for reference.

It is further noted that portable pumps, placed on board at the port of discharge, will be used for unloading the palm oil cargo, and that alterations to the existing pumping arrangements are therefore unnecessary.

The use of a steam jacket for the special portable pump is noted with interest.

Thanking you for your kind attention in the matter,

I am, Dear Sirs,
Yours faithfully,

Secretary.
