PORT OF GLASGOW

11th July, 1923.

Dear Sirs,

The Steamer "NIGARISTAN" has left this Port for the Bristol Channel. To complete the Boiler Survey for the record of B.S.7,23., the Donkey Boiler with its safety valves and mountings remain to be examined and safety valves of Donkey boiler adjusted.

It is expected that the above survey will be carried out at Cardiff of failing this, at Barry or Newport.

Please give the matter the necessary attention.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,
CARDIFF.
