

S/S "MINNA HORN".

Captain Thompson of The Byron Steamship Co.Ltd. telephoned to say that he desired instructions sent to Cardiff so that the Surveyors might make a General Examination of this vessel with a view to the issue of a six-monthly certificate. He also desired the freeboard to be assigned.

I informed Captain Thompson that as the vessel had *not* been definitely transferred to his Company, we could only ask the Surveyors to give the case their attention as soon as the transfer had taken place, and he stated he would get into touch with Major Pinkey with a view to obtaining permission for the survey to be held now.
