

W203-0197

Ex-German S.S. "MINNA HORN"

It is submitted the Cardiff Surveyors be informed that as the set to starboard of the stern frame is in their opinion original and does not interfere with the working of the rudder, the pintles of which appear to be in line, it is considered that the stern frame might be accepted for classification, provided the Surveyors are satisfied that the stern frame and rudder are sound, and the latter is in good working condition.
