

MEMORANDUM

Mr. Garrett of the Ministry of Shipping states that the ex-German Steamer "MINNA HORN" is at present in Mountstuart Drydock Cardiff. It is found that she has bottom damage, that the stern frame is set over and that several plates are slightly set up, and he states that Mr. Cambridge, the local representative of the Ministry of Shipping at Cardiff, will call in the Society's Surveyors to decide what is necessary for repairs to the bottom to satisfy the requirements of this Society for classification. This arrangement has been agreed upon between the Ministry and the purchasers of the Steamer, and Mr. Garrett desires that the Society's Surveyors at Cardiff be authorised to deal with this matter.

J.H.W.

7th December, 1920.

Submitted the Cardiff Surveyors be advised
