S.S. PART HELD.

The Surveyors should be informed, account being taken of the last paragraph of Clause 7, Page 18 of the Rules, it appears that to complete the Special Survey in addition to the examination of the bottom, rudder and windlass, the steering gear and Nos.7A F.W. tanks (p & s) require to be examined.

The items dealt with for the Progressive Survey of Tanks may be taken as dealt with for Special Survey in the ordinary way in view of the fact that the examination and testing of these tanks has not been spread over a 4-year period, but dealt with since the Special Survey became due.
