

Messrs. Vickers Armstrongs' Yard No. 712.

T.S.S. "ORCADES".  
-----

IT IS SUBMITTED the Barrow-in-Furness Surveyors be informed it is noted from the plans that the winch motors are to be of the Austin type, from which it is concluded that the constant current series system is used *and* ~~further plans should be submitted showing these motors and their control gear, including the diagram of connections.~~ *showing the switchgear for the constant current generators* Further information is also required on the Ozonair equipments and plans should be submitted showing the arrangement and circuits together with *particulars* ~~details~~ of the secondary voltage and the safeguards against *the effects of* high voltage and against the effect of ozone on the insulation, *including cables.*

In other respects the plans 712/7, 9, 10, 12, 13, merit approval provided the installation be as shown and amended on the plans and the remaining requirements of the Rules for Electrical Equipment be complied with.

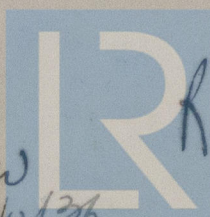

It is noted that the plans of Radiator circuits for the 1st Class and Tourist Public Rooms will be submitted later. It is concluded that the plans of the main and auxiliary switchboards will be forwarded in due course.

Return 1 set of plans.  
Retain 1 set of copies.
