

Messrs. Vickers-Armstrong Ltd. Yard No. 712.

Closed Feed Water System by Messrs. G. & J. Weir Ltd.

IT IS SUBMITTED the Glasgow Surveyors be informed the remarks contained in their letter of the 27th ultimo regarding the plan of diagrammatic arrangement of closed feed ~~water~~ system are noted, and in the circumstances the plan will be approved.

IT IS FURTHER SUBMITTED the Barrow Surveyors be informed that the plan of diagrammatic arrangement of *Messrs G. & J. Weir's Drawing No 97694/CS 784.* closed feed system[^] forwarded by the Glasgow Surveyors has been considered in this Office and that it is not clear from this plan whether two independent means for feeding the boilers are fitted as required by Section 18 Clause 9 of the Rules.

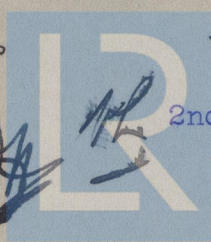

The Glasgow Surveyors state, however, that the auxiliary feed system is not necessarily a part of the closed feed system and that this matter will be dealt with by Messrs. Vickers-Armstrong, Ltd.

The Barrow Surveyors should therefore give this matter their attention and a plan showing the arrangement should be submitted in due course.
