

DRAFT

Reverting to your letter of the 7th ultimo respecting the steamer "PANOS", I have to acquaint you that the records of this vessel have been searched and it is found that in October 1935 the Bristol Surveyor reported that one tunnel shaft was found flawed in the journal and was renewed at that time. I may add that in accordance with the request contained in your letter of the 29th ultimo this information is being furnished to you with the Owners' consent.
