

W 205-0111

for ship Patella.

Nov 8/73

It is concluded that the cooling water pump  
two cables in parallel to each pole, each  
able having the sectional area stated in the  
port, but this should be confirmed

J.S.H. 30/8/29

See Mr 3/9/29

insulated from the slab with mica or micanite and the slab similarly insulated from its framework

yes
